Market Reactions to Regulatory Disclosure: An Event Study

Research Team

October 16, 2026

1 Introduction

We measure cumulative abnormal returns [claim:c-car] [1].

2 Empirical Results

The 3-day mean CAR is -0.0437 with an illustrative standard-error placeholder 0.0038; clustered inference is unverified.

Mean CAR	-0.0437
SE	0.0038
